

Lewis Design Build Remodel Embarks On A New Community-Based Program To Recognize Teaching and Academic Educational Excellence

Scotts Valley, CA (September 15, 2021) - In 2006, Jared Lewis, Owner of Lewis Design Build Remodel (LDBR), created his company with a passion to help others in his community. Whether it is creating a dream space for a client, or volunteering in his local community with his wife Kathy, they have always tried to find ways to give back to the community. That's why Jared and Kathy have decided to organize and launch the Lewis Design Build Remodel (LDBR) BUILDing Community outreach program with the singular goal of giving back to the community in which they serve and provide regional hope, support and inspiration through educational financial endowments.

At this time, the LDBR BUILDing Community program consists of two initiatives. The first, 'U Nailed It', is designed to honor teachers in the Scotts Valley region. This award allows parents, colleagues, students, and district administration to nominate teachers of distinction who have exhibited educational excellence, benefiting their community, school, and student body. Nominations will be evaluated and tallied to select an eligible teacher by the end of each month during the school year and they will receive a financial gift for their classroom and the coveted 'U Nailed It' award for their outstanding commitment.

The second LDBR BUILDing Community initiative focuses on high school seniors with aspirations of continued education. The 'LDBR Student Scholarship' offers 2 students \$500.00 of financial assistance to help them better prepare for college. LDBR has prided itself over the last 15 years for truly understanding how important it is to be involved in the community. "Giving back, paying it forward, honoring hard work and dedication will afford our educators, students, and schools greater opportunities. We feel extremely lucky to be a part of that amazing process", said Jared Lewis, Owner, and Founder of Lewis Design Build Remodel.
